

COBELLA SALON SELFRIDGES

OXFORD STREET, LONDON

CLIENT: COBELLA

Lees Associates worked alongside Tokyo based Klein-Dytham in realising the innovative and dynamic Cobella concept salon in Selfridges Oxford Street.

With the emphasis on relaxation, the soft bands of colour and glowing Perspex walls guide you into the heart of the salon. State of the art technology and futuristic design combine with luxurious treatments to provide an unparalleled hairdressing experience. Small consoles at each hair 'station' allow customers to surf the net or watch television while high tech chairs massage away tension.
